

STACEY VOSTERS: A GIRL WITHOUT GUTS: INSIGHTS FROM #LIVING WITH A CHRONIC ILLNESS

#Living. This is Stacey's motto. She is a passionate, driven, and a very successful 29 year old. Looking at her now you would never guess that she fights to live everyday. Stacey was 27 years old when she was first diagnosed with Ulcerative Colitis and then Crohn's disease a year later. She went from healthy and strong to sickly overnight.

Thanks to 3 surgeries, an ileostomy, j-pouch, port, and countless medications Stacey is back to #living. Join us as Stacey discusses life with a hidden chronic illness and how to keep #living your best life!
